

## How to connect HSMC WiFi AutoConnect Service (IOS)

Description:	This guide describes how to connect HSMC WiFi AutoConnect Service using iPhone Operation System.
Updated Date:	March, 2018

### Step 1.

Select "**Setting**".

### Step 2.

Enable "**WiFi**" connection, choose Wi-Fi network (SSID) named "**HSMC-WIFI**".

### Step 3.

Enter Username and Password as below:

- Username: your Windows user name
- Password: your Windows password

Press **"Join"**.

The screenshot shows the 'Enter network information' screen for an 'Other Network'. The network name is 'HSMC-WIFI'. The security type is 'WPA2 Enterprise'. The username field contains 'username' and the password field contains a series of dots. The 'Join' button is highlighted with a red box.

### Step 4.

Certificate **"wifiauth.hsmc.edu.hk"** will be shown, press **"Trust"** to continue.

The screenshot shows the 'Certificate' screen for 'wifi-auth.hsmc.edu.hk'. The certificate is issued by 'COMODO RSA Organization Validation Secure Server CA'. It is marked as 'Not Trusted' and expires on '1/4/18 7:59:59 am'. The 'Trust' button is highlighted with a red box.

### Step 5.

Once **HSMC-WIFI** is **"Connected"**, you may start to use WiFi.

The screenshot shows the 'Wi-Fi' settings screen. The Wi-Fi toggle is turned on. The network 'HSMC-WIFI' is selected and highlighted with a red box. The status bar shows the time as 2:46 pm and 97% battery.
